

HCH-3033-CHG 3 Bay Cradle & 3 Bay Battery Charger

HMC3000-IMG-Li
HMC3000-LAS-Li
Honeywell® Batteries

FEATURES

Highest quality cells used

Only the highest quality graded and sorted cells from Sanyo.

Longer cycle life

Excellent discharge characteristics, more charge cycles and higher capacity, all combine to provide longer cycle life, resulting in full shift operation.

Extremely rugged

High impact polymers are used for the casing making this an extremely durable product.

Rigorous testing

The product is subjected to rigorous quality testing, including UN/DoT testing for vibration, short-circuit, overcharge, shock, altitude simulation and temperature.

Trademarks are the sole property of their respective owners.

More efficiency in less space

Charges spare batteries plus the batteries in devices simultaneously and fast.

Dual-chemistry charger

Supports Li-Ion and Li-Polymer chemistries.

Hassle-free mounting

Utilizes same mounting bracket as Symbol® chargers for easy wall mounting.

Tri-color charging indications

A charging LED indicates charging status.

A solid Yellow indicates the battery is charging normally.

A solid Red indicates error, typically due to battery being too hot, or too cold to charge.

A solid Green indicates 100% charge.
