- Many companies have made a significant investment in their wireless devices.
- Companies purchase wireless devices so that:
 1. Workers are more efficient.
 2. Information and communication flow faster.
- Honeywell Batteries will help to ensure that your devices perform at an optimum level.
- Honeywell Batteries can help you get the greatest ROI possible.

- Quality by design
- We use on the highest quality cells available from the industry leaders: Sanyo, Toshiba, Panasonic and Sony.
- Best practices and highest quality manufacturing techniques are always used.

We have positioned our product in the marketplace so that we are the only upgrade to the OEM.

Trust your upgrade

Upgrade to Honeywell

Top 5 Benefits

1. Guaranteed to be identical or better than the original equipment manufacturer's batteries.
2. Cost savings of 20-30% as compared to the OEM.
3. SAME Day Shipping on most orders.
4. Many of our batteries have a 20% or more capacity than the OEMs.
5. Our 12-18 month warranty is unmatched in the industry.

Thank You

We look forward to being of service to you,
and adding you to our list of satisfied
customers...
